

Good morning Mrs,

My name is Audrey MOINE-PICARD, I am 25 years old. I live in France in the Grenoble's city. I obtained **the Technological University Bachelor Degree option Sustainable Cities and Territories in Belfort**. Before that I have had **my high school degree in June, 2021**. I have a driving licence and I have my own car.

I am proficient in **desktop tool, like Word, Power Point**. But I know too **handle the Canva's software**. I was able to create posters for many events. I had **basic knowledge in English** but I want to improve myself. I am an **organised person**. Indeed I have an agenda to organising my meetings and I can do To Do List to class my tasks. I can also **adapt quickly**. In the last summer, I have worked in central kitchen but before that I don't know this area but I have succeeded to work.

During my degree, I did an **internship**. I was in the **citizen population service** in the town hall. I found very interesting to **include the inhabitants** in project development, because they are the actor of the territory.

In august 2021, I been leave in **humanitarian mission in the town of Beirut**, because since the explosions, there are many damages and the population is needy. With socials workers, we have try to help this population : giving the food, find a housing. This mission was hard because we seems powerless in front of all this population asking for help.

Then I am a **member of gymnastic club, I giving my time to train gymnasts**. I help also to **organizing events**. Indeed we install the equipment to the competition, take care of refreshment stand. I like help this club because I used to do gymnastics there.

I saw on your website that you advise the people on their electric consumption, with my formation I have had courses on energy, I could you help on this mission. In France, I was went in **pedagogic apartment**, where the people could see and learn how to reduce the electric consumption, this tool is very interesting for them. That could be do in Liverpool.

By coming to **Liverpool**, I can could you help the **homeless people** to find them an home. Because I have already work with the people in need in Beirut. With you, we could organising a **job dating** to these people, to **reintegrate the people** in the society.

Thank you to listening to me

**What do you know about our services ?**

- ❖ Help people to control their electric consumption
- ❖ Find home to homeless people

**What is your motivation for that job ?**

- ❖ To give my point of view
- ❖ To have more knowledges in social matter

**What kind of project have you already implement ?**

- ❖ I had developed in French a shared garden project in a municipality, the inhabitants was very happy.
- ❖ I had developed a project : this goal was give the voice of the people so that they express their problems in their neighbourhood, what's missing. This project has allowed at the inhabitants of priority neighbourhoods to free the voice.

**How do you see yourself in five years' time ?**

- ❖ I would like to remake the humanitarian mission in other countries to enrich my experiences.

**How you have develop your leadership ?**

- ❖ In the shared garden project, I managed to a team to make it happen.

**Why choosing a job aboard ?**

- ❖ I wanted to a new challenge, in other town, and I think to Liverpool town, there are things to improve the quality of life.
